

# Valuation and Investment Appraisal (Financial World/Association of Corporate Treasurers)

Highlights key elements of financial statements. Uses worked examples throughout. A unique practitioners insight into key aspects of corporate finance and treasury management. Focuses on the evaluation of investment decisions, by highlighting the key elements of financial statements and the ratios therein and their relevance to the financial analyst in the valuation of companies. This book uses worked examples to show just how financial statements and ratios can be interpreted, and different valuation methods can be employed, to assess the company's strategic position within its industry and evaluate its business and marketing plans to produce accurate financial forecasting. It also examines the main sources of finance available to companies and the impact of the type of finance raised on the valuation of investment.
