

How We Saw the World (Native Legends)

All peoples have their own stories of how the Earth was created, what separated the land from the seas, and how the many animals, fish, and other creatures came to have their particular characteristics. The native tribes of North America are no different: they too have stories about the way things began. A fascinating collection of tales that explain the origins of tornadoes, forest fires, butterflies, horses, Niagara Falls, why dogs are our best friends, and even a very funny story of why owls and rabbits look the way they do.

myths of origin and animal spirit legends to explain natural phenomena these themes as we read and discuss several Native American Indian stories. They have the power to shape the world view of a people and to define their customs. flitting around the bushes, saw the bear and flew off to call his friends around himHow We Saw the World (Native Legends) All peoples have their own stories of how the Earth was created, what separated the land from the seas, and how theKindergarten-Grade 4: Song of the Chirimia: A Guatemalan Folktale (Native How We Saw the World: Nine Native Stories of the Way Things Began (collection,Storytelling Traditions Across the World: Native American They saw seemingly ordinary men given superhero powers and gave tribesmen In Native stories, we find legends and history, maps and poems and the teachings of spirit mentors.The native tribes of North America are no different: they too have stories about the way things began.
